

Fuel Module

OAKLAND Fuel is designed to streamline your energy division's scheduling, delivery, billing, and maintenance routines.

OAKLAND Fuel seamlessly integrates with **OAKLAND Accounting** to track from office to the point of delivery and back again for refined fuels, liquid propane, and other deliverable energy sources.

Delivery Truck Operators have:

- Up-To-Date Contract & Pricing Information
- Customer Account Information
- Wide Variety of Details About Each Fuel Tank
- Delivery Tracking
- Maintenance Scheduling & History
- Tank Rental Billing
- Delivery Scheduling, Including Degree Days
- Data “Snapshots” To Pass To On-The-Truck Point of Sale/Point of Delivery Devices

FuelPOS (Optional)

- Point of Sale Laptop Can be Connected Directly to the Fuel Truck Meter
- Wireless System Updates Received from the Truck
- Runs on Laptop or Handheld Device in the Fuel Truck
- Recording Device (Not a Stand-Alone Solution)
- Allows Fuel Truck Operators to do Their jobs Without Having to Deal With the Complexity of Maintaining an Entire Accounting System
