

Change Email Password

When changing your password, remember you must update your password in Outlook and any mobile devices.

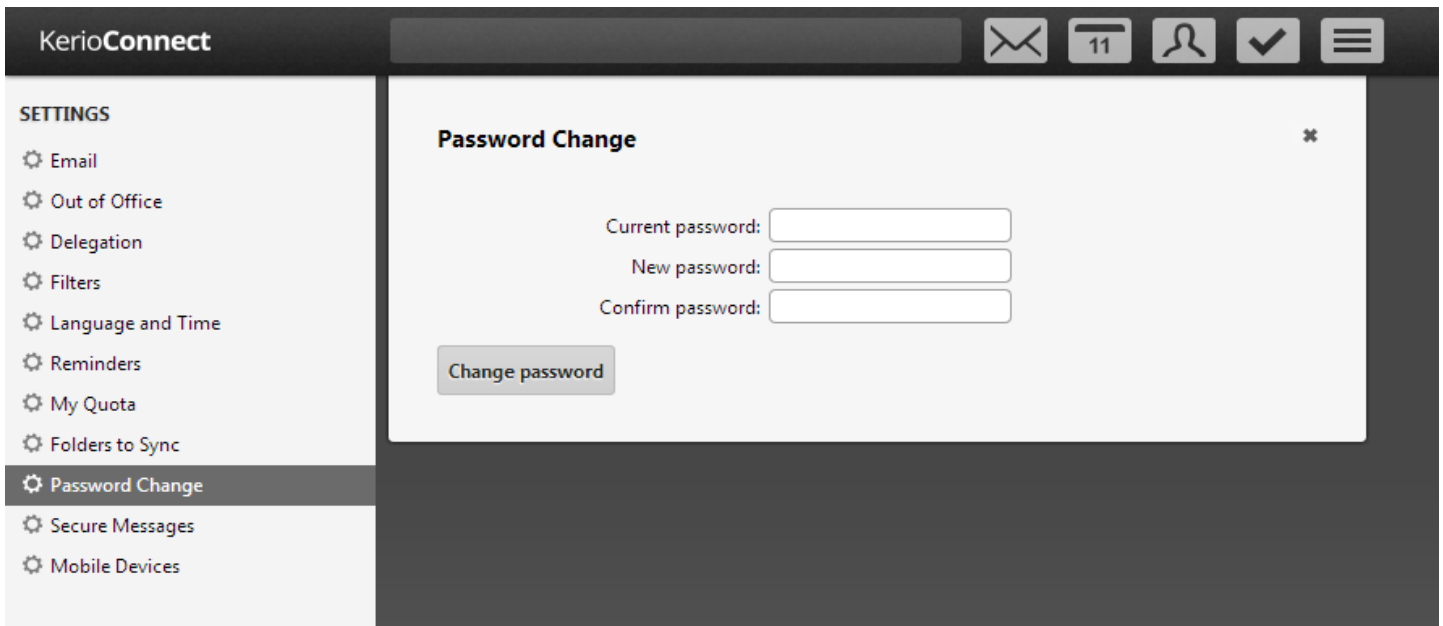

Open your Internet Browser.

Go to <https://mail.oaklandcorp.com>

Login with your full email address and password.

In the upper Right hand corner, click your name. Then select Settings. Once the Settings Window loads, click “Password Change” on the bottom of the left hand pane.

New passwords must be at least 8 characters, and contain an uppercase letter, a lowercase letter, and a number.

Enter your old password, and confirm your new password twice.
Press “Change password”.
